

### Colby Grunden, John Edwards High School

"I had fun in high school and made a lot of friends and memories. I'm going to miss playing sports with my boys and cheering on the other teams.

"This summer, I plan on going on good trips and visiting fairs with my friends. . . . I guess that means I'm going to need money *(mom and dad)*. I'll figure that part out later.

"In the fall, I am joining the Wisconsin Army National Guard.

"One thing I know for sure is that I'm going to miss this town.

# **Carson Parks**,

### University of Wisconsin – Madison

"I have earned my B.A. with a major in Economics. I am planning on taking some time to travel before hopefully finding a finance job within the next year or so.

One of my highlights from college was watching Wisconsin beat Purdue

in the Big Ten Basketball Tournament. I also enjoyed going to football games and jumping around."

## Danial Harnisch,

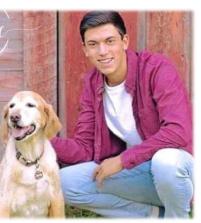

### University of Wisconsin – Green Bay

Danial could not be here because his commencement is this weekend.

"I am graduating with my Bachelor's in Business with a

concentration in Accounting. Schrieber Foods corporate has signed me last fall for full-time employment upon graduation. The company is searching at all of its facilities for the right fit for me and them. Until then, I will continue to work at corporate headquarters in Green Bay in the finance department. I will study and take my CPA exam probably this fall. I do not need it for my career, but I want it as a secondary option.

"Thank you, church family, for supporting me through my college years."
